Data Source - Findmypast who provide access to National Archive information.

The 1939 Register was used for more than identity cards and ration books. It was also used to create National Health Records and in some instances was used as late as 1992. The dates are dates the records were updated (the medical abbreviations are not listed), not the dates of marriage.

Officially Closed is shown where it has not been confirmed people have died. It is assumed that anyone over 100 years has died.
