

Califat Coal Mine, St George's Hill, Swannington Photographic Report Of LIHS Excavation - April 2023

Alabama Engine House

There were more diggers than usual and the site was a hive of activity.

The second pair of studs on the brick plinth on the east of the complex were found.

Digging deeper meant that the wider brick base could be seen.

Califat Coal Mine, St George's Hill, Swannington Photographic Report Of LIHS Excavation - April 2023

The brick wall on the south side was exposed.
